TNG Portal Forms and Associated Schemas

Form-specific schemas are created to ensure that adequate spatial information is submitted to accompany the data provided in each form. Forms are associated with appropriately-built schemas to establish a logical link between the submitted forms and their attached shapefiles.   The table below lists the schemas associated with each form. Refer to each Built-Form document for a complete description of that form's fields and the structure of each schema, available at http://www.tngportal.ca/doc_links.php.

Form	Schema
Forestry Referral Form 2011-Sept-15	forestry_blocks forestry_roads
TFA Engagement Requests 2011-Sept-15	tfa_point_feb15 tfa_line_feb15 tfa_poly_feb15
TFA Engagement Level Changes 2011-Sept-15	tfa_point_feb15 tfa_line_feb15 tfa_poly_feb15
TFA Level 1 Notification Form 2011-Sept-15	<no schemas associated – cannot add shapefiles or documents to Notifications>
General Communication 2011-Sept-15	tfa_point_feb15 tfa_line_feb15 tfa_poly_feb15 forestry_blocks forestry_roads gps_photo_fieldsheet_points arch_poly
